

FRONT OFFICE

HASSO PLATTNER

MAJORITY OWNER

Hasso Plattner serves as the owner of Sharks Sports & Entertainment (SSE). A charter member of the local ownership group that purchased the San Jose Sharks from original owner George Gund III in 2002, Plattner became the organization's majority owner in 2010 and is currently the sole owner of the franchise.

A lifelong hockey fan, Plattner intently followed the game at the international level while growing up in his native Germany. An avid spectator of hockey's World Championships each year, he marveled at the exploits of the Soviet Union's powerhouse hockey teams in the late 1970's and early 1980's.

On a trip to the Bay Area as co-founder of SAP SE, the world's largest business software company, he distinctly recalls the moment his past and future collided while watching the Sharks play on television in 1993.

"The announcer says (Sergei) Makarov...(Igor) Larionov...(Johan) Garpenlov," Plattner recalled. "Not possible - I see two of the top players I watched for more than 10 years. And here they are."

And so began Plattner's affinity for the San Jose Sharks and hockey in the Bay Area.

His passion for the game of hockey and desire to win have been evident during his tenure as the Sharks majority owner. Under his stewardship, the team earned its first trip to the Stanley Cup Final (2016), made four appearances in the Western Conference Final (2010, 2011, 2016, 2019), and posted four 100+ point seasons.

Plattner affords General Manager Mike Grier the financial autonomy to spend to the NHL's upper limit of the salary cap and ensure the team has the resources it requires to scout, draft, and develop younger players while maintaining the financial stability to keep the team's franchise players in San Jose.

In addition, Plattner has provided resources for the organization's player development system to take major steps forward in several areas. In 2014, he committed the financial backing to re-locate the team's American Hockey League (AHL) development affiliate to California in order to enhance the organization's ability to oversee and develop prospects. Along with that relocation came a large-scale, facility expansion at Sharks Ice at San Jose to house the AHL's San Jose Barracuda where the franchise opened the 2022-23 season at Tech CU, along with a major cosmetic modernization and renovation to the Sharks existing practice facilities. The expansion created two additional public ice sheets, making it the largest ice facility under one roof in North America.

The investments he made into the relocation paid immediate dividends as the Barracuda qualified for the AHL's Playoffs in their first three seasons in San Jose, including advancing to the Western Conference Final in 2017. In addition, several of the team's players have been recognized with major League awards and the team has consistently developed and funneled players to the Sharks NHL roster.

Off the ice, Plattner has paid for many major upgrades to SAP Center, ensuring the venue remains a world-class facility. New to the 2023-24 season, the Sharks debuted the Penthouse Lounge, a premium seating experience with luxurious seats, and a semi-private hospitality space which provides an exclusive, elevated viewing experience for all events at SAP Center.

Other large-scale projects that have transformed SAP Center in the last decade include the installation of a permanent dehumidification system to ensure SAP Center is capable of maintaining the best ice conditions possible in the Bay Area's temperate climate, a large-scale upgrade of the building's roof, as well as the addition of a state-of-the-art digital media wall on SAP Center's concourse. In 2017, the members-only Sharks Lounge opened, providing an all-inclusive dining experience in a luxurious setting on SAP Center's club level and the building was upgraded with a state-of-the-art LED lighting system the following season, improving the look of the game in the building, as well as on television. SAP Center also debuted a brand-new center hung scoreboard at the beginning of the 2022-23 season, improving the venue's atmosphere and enhancing the game presentation production prior to and during Sharks games.

Plattner's most commendable action came in May 2015 by re-committing the Sharks to the City of San Jose with a ten-year arena management agreement. The new deal will keep the team at SAP Center at San Jose through 2025, with the potential to extend the agreement through 2040. His mandate to the SSE's management team was to craft a deal quickly and fairly with the city of San Jose, without the threat of relocation or public subsidy.

Plattner's passions in life are sports, business and science. At SAP, he currently serves as Chairman of the Supervisory Board and as Chief Software Advisor, where he concentrates on defining the medium and long-term technology strategy of SAP. He also currently is the head of the Technology Committee of the SAP Supervisory Board, serving over two decades in the role after being named to the position in May of 2003.

Plattner has received a number of honors recognizing not only his accomplishments in the business world but his significant track record in giving back to the community. In 2016, he was awarded the Prize for Understanding and Tolerance presented by the Jewish Museum Berlin, awarded to "individuals to honor their exceptional contribution to understanding and tolerance, the promotion of human dignity, the integration of minorities and the coexistence of different religions and cultures." In 2015, he was awarded the GABA Lifetime Achievement Award and in 2014 received the Leonardo European Corporate Learning Award in the Thought Leadership category.

In 2002, the University of Potsdam appointed him an Honorary Doctor, and in 2004, an Honorary Professor. In 1998, he was inducted into the German Hall of Fame, which honors those who promote economic and social development in Germany. In 1997, he received the Information Technology Leadership Award for Global Integration as part of the Computerworld Smithsonian Awards Program.

Plattner received his master's degree in communications engineering from the University of Karlsruhe. In 1990, the University of Saarbruecken awarded him an honorary doctorate and in 1994 he was granted an honorary full professorship.

Well known for his philanthropic efforts, Plattner is a leading private patron of education and research in science and technology. Following his retirement from day-to-day involvement in SAP, Plattner has devoted his time to the promotion of science, innovation and entrepreneurship, as well as to social and cultural projects.

In 2016, Plattner joined forces with art dealer Guy Wildenstein to form the Wildenstein Plattner Institute, a foundation dedicated to advancing art historical scholarship by fostering the accessibility, cataloguing, and digitization of primary sources. Plattner also helped in the establishment of the Museum Barberini, devoted to his holdings of modern and Impressionist art, as well as artists active in the former German Democratic Republic (GDR). In 2022, he opened Das Minsk, another private museum in Potsdam, which focuses on East German artists who were active after the fall of the Berlin wall.

Under the umbrella of the Hasso Plattner Foundation, he founded the Hasso Plattner Institute for Software Systems Engineering (HPI) in 1998 at the University of Potsdam in Germany, and expanded the HPI with a School of Design Thinking in 2007. He not only fully finances the HPI, but is also actively involved as a director, professor and lecturer in Enterprise Platforms and Integration Concepts.

In 2005, Plattner established the Hasso Plattner Institute of Design at Stanford University, informally called the Stanford d.School, which champions methods from

the field of design to help people in every function across every industry become more innovative. The Stanford School has helped champion the world-wide adoption of Design Thinking, a formal methodology for tackling complex problems that goes beyond traditional brainstorming by re-framing the problem in human-centric ways.

In addition, Plattner has long been active in the fight against AIDS in South Africa.

Along with being a life-long hockey enthusiast, Plattner is an avid competitive sailor who has participated in numerous 505 World Championships, a race for high-performance two-person sailboats, as well as many offshore races. His top sports hero is Jesse Owens, the track and field star who captured four gold medals at the 1936 Berlin Olympics, and his top personal hero as Nelson Mandela for his ability to guide South Africa out of apartheid.

**MIKE GRIER****GENERAL MANAGER**

Mike Grier begins his second season as General Manager of the Sharks. In his role as general manager, Grier will have overall authority regarding all aspects of the Sharks hockey-related operations, including overseeing all player personnel decisions, leading the club's player evaluation process at all professional, minor, and junior levels, negotiating player contracts, directing the club's on-ice coaching and off-ice support staffs, and managing the efforts of the team's scouting department.

Grier, 48, has spent a lifetime in the game of hockey as a player, scout, coach, and executive. On July 5, 2022, Mike Grier had the distinguished honor of becoming the fifth general manager in the Sharks franchise history and the first Black general manager in the history of the National Hockey League.

In his first full season with the team in 2022-23, Grier reshaped the prospect pool and altered the franchise's future significantly by acquiring several draft selections and players. In a blockbuster trade with New Jersey that included 13 different players and picks, Grier acquired Fabian Zetterlund, Shakir Mukhamadullin, and Nikita Okhotiuk, and utilized the 26th-overall selection from New Jersey to pick Quentin Musty in the first round, after selecting Will Smith with the team's own fourth-overall selection in the 2023 NHL Draft. Grier also strategically utilized San Jose's own draft capital and acquired defenseman Henry Thrun for a third-round selection in 2024, and signed Thrun to a two-year contract at the conclusion of his collegiate season.

In his first draft with the team just days after being named General Manager in 2022, Grier traded down from the club's 11th overall selection to acquire three selections which yielded Filip Bystedt, Cam Lund, and Mattias Havelid in the first and second rounds.

Prior to joining the San Jose organization in his current role, he was hand-picked by New York Rangers President and General Manager and former teammate Chris Drury to serve as a hockey operations advisor. In that role, Grier assisted Drury in hockey-related decisions and off-ice player development, and assisted prospects in the Rangers organization, including players with the Rangers' American Hockey League (AHL) affiliate, the Hartford Wolf Pack.

During the 2021-22 season, a rebuilding Rangers team experienced a 50-point improvement over their 2020-21 campaign, finishing with a 52-24-6 record and 110 points, a second-place finish in the Metropolitan Division (seventh overall in the NHL) and advanced to the Eastern Conference Final, before succumbing to the Tampa Bay Lightning in six games.

Grier also served on USA Hockey's selection committee for the 2022 World Championships, where he assisted in scouting, evaluating and selecting players for the U.S. team.

Grier served as an assistant coach with the New Jersey Devils for two seasons (2018-20). As a member of Head Coach John Hynes' staff, Grier worked directly with the forwards and assisted with the Devils special teams. During his two seasons with the Devils, New Jersey's penalty killing ranked third in the NHL (83.4%) and their net penalty killing percentage was second overall (87.4%). He was also responsible for pre-scouting the Devils opponents.

From 2014-18, Grier served as a scout with the Chicago Blackhawks, including their 2015 Stanley Cup Championship season. Grier focused on scouting amateur and professional players, including the team's prospects and prospective player acquisitions both at the NHL level and via the NHL Draft.

From 2013-17, Grier served as an assistant coach at St. Sebastian's Prep School in Needham, Mass. He has also been active in working on skill development with collegiate and high school hockey players in the Boston area (2011-2017).

As a player, Grier spent 14 seasons in the National Hockey League as one of the game's top defensive forwards and leaders. He amassed 1,060 NHL games with the Edmonton Oilers, Washington Capitals, Buffalo Sabres, and the Sharks, collecting 383 points (162 goals, 221 assists) along with 510 penalty minutes. He served as an alternate captain and as a member of the leadership group with each of his NHL teams. As a physical, penalty-killing forward annually in the conversation for the Frank J. Selke award, Grier helped establish a top unit on multiple teams, including a League-best penalty kill efficiency on San Jose in 2007-08 (85.8%), fifth-best in 2008-09 and he helped Buffalo achieve the second-best efficiency in 2009-10 (86.6%).

During his NHL tenure between 1996-2011, Grier tied for 11th amongst all NHL players with 20 short-handed goals. Despite the NHL not tracking advanced statistics until the 2005-06 season, Grier ranks 10th amongst all NHL forwards in blocked shots (315) and 33rd in hits (705) over the course of his career.

He initially joined the Sharks organization as a free agent on July 3, 2006 and over the next three seasons, appeared in 221 NHL games, recording 78 points (35 goals, 43 assists). As an alternate captain, Grier helped the Sharks reach the Stanley Cup Conference Semifinals in 2006-07 and 2007-08. He was also a member of the Sharks 2008-09 Presidents' Trophy-winning club that won 53 games and earned 117 points.

His best season with the franchise was in 2006-07 where he registered 33 points (16 goals, 17 assists) in 81 games and led the club in short-handed goals (three). He then added four points (two goals, two assists) in the 2007 postseason in 11 games, which included a two-point game where he scored a goal and assisted on the game-winning goal by Patrick Rissmiller in the second overtime of Game One of the Western Conference Quarter Final against the Nashville Predators, en route to a 4-1 series victory for the Sharks.

Originally selected by the St. Louis Blues in the 1993 NHL Draft (ninth round, 219th overall), Grier's rights were later traded to the Edmonton Oilers, along with goaltender Curtis Joseph, for St. Louis' first-round selections in the 1996 and 1997 NHL Drafts. Grier earned a spot on the Oilers roster directly after his collegiate career and never played a game in the minor leagues. Upon his NHL debut on Oct. 4, 1996, Grier became the first African American born and trained in the U.S. to play in the NHL.

Grier's teams appeared in the Stanley Cup Playoffs in 11 of his 14 NHL seasons, including advancing to the 2006 Eastern Conference Final, where Buffalo narrowly lost a seven-game series to Carolina. In 101 Stanley Cup Playoff games, Grier tallied 28 points (14 goals, 14 assists) and 72 penalty minutes.

Grier has also had a long-standing relationship as a player and a coach with USA Hockey, beginning with being selected to the 1995 World Junior Championship team. He was a member of the 1996 U-21 National team and captured a bronze medal at the 2003 World Championships, where he was named an assistant captain. Off the ice, Grier served as coach at the USA Hockey 17s Festival and the CCM All-American Prospects Game in 2014, was an assistant coach for the U.S. women's national team for the Winter Series vs. Canada (2016) and was a coach and a member of the selection committee for the U.S. women's national team Olympic evaluation camps (2015-2017) ahead of the 2018 Winter Games.

Prior to his NHL career, Grier played for Boston University over three seasons, compiling 120 points (59 goals, 61 assists) in 114 games. He helped lead the team to an NCAA Championship in 1995 and captured a Hockey East Championship in two consecutive seasons (1993-95). Following the 1994-95 season, he was named to the All-Hockey East First Team, selected to the Division I AHCA All-American Team, won the Walter Brown Award as the best U.S.-born collegiate player in New England, and was a finalist for the Hobey Baker Award, awarded to the top collegiate hockey player. Grier was selected as the BU's captain for the 1995-96 season but withdrew from the university to begin his NHL career.

Grier comes from a family embedded in the fabric of leadership, scouting and development in professional sports. His father, Bobby, is a long-time executive in the National Football League, with stints in scouting, player personnel and as an advisor with the New England Patriots and Houston Texans. He currently serves as a consultant with the Miami Dolphins. His brother, Chris, has served as general manager of the Miami Dolphins since 2016. Chris worked as a scout for Miami dating back to 2000, and previously worked in scouting with the Patriots beginning in 1995. In 2022, Grier was named to the EBONY Power 100 List in the Business Disruptors category, recognizing the groundbreaking achievements and societal contributions of industry leaders championing for change across industries.

Grier, a native of Detroit, MI, and his wife, Anne, have three children: sons Jayden and Tristan, and daughter Brooklyn.

**JOE WILL****ASSISTANT GENERAL MANAGER, SAN JOSE SHARKS / GENERAL MANAGER, SAN JOSE BARRACUDA**

Joe Will begins his 13th season as assistant general manager for the San Jose Sharks and his 11th as general manager of the Sharks' American Hockey League affiliate (Worcester Sharks and San Jose Barracuda).

On Apr. 7, 2022, Will was named interim general manager for the Sharks, and handled the day-to-day duties as general manager in addition to his role as the assistant general manager until the hire of Mike Grier on July 5, 2022.

In San Jose, Will works closely with general manager Mike Grier on all daily departmental functions and his primary responsibilities include contract research and negotiations, scouting operations, fiscal planning, salary cap analysis and hockey administration. He's the lead coordinator and planner for the Sharks training camp, scouting meetings and scouting conference calls each season.

In addition, as general manager of the San Jose Barracuda, he oversees all of the hockey operations for the Sharks AHL affiliate, including player evaluation, player contracts, and player recall and reassignments.

In an effort to strengthen the organization's player development system and program, the Sharks relocated their American Hockey League affiliate to San Jose. Beginning in the 2015-16 season, the Barracuda became a part of the AHL's new Pacific Division and now play their home games at SAP Center. The move west eliminated the need to fly players across the United States in the event of recalls and reassignments, adding valuable rest and practice time. It also allowed for greater interaction and observation from San Jose's development coaches.

The relocation has paid immediate dividends. The Barracuda finished the 2016-17 season with the second-best winning percentage in the AHL (0.699%), winning the Bud Poile Trophy as the Western Conference regular season champions and the John Chick Trophy as Pacific Division champions, and earning an appearance in the Western Conference Final. In addition, the Barracuda held an AHL season-long winning streak of 14 games, paced the AHL in goals per game (3.44), ranked second on the power play (23.8%), eighth ranked penalty kill (83.3%) and had nine different players spend time on the Sharks roster, all while having the fifth youngest team in the league. The season marked one of the most successful campaigns in San Jose Sharks minor league affiliate history.

Moreover, individual feats highlighted the 2016-17 season; Troy Grosenick became just the fifth goaltender in AHL history to reach double-digit shutouts (10) earning him the Aldege "Baz" Bastien Award (goaltender of the year) and a First Team AHL All-Star nod; Danny O'Regan received the Dudley "Red" Garrett Memorial Award as the AHL's rookie of the year; and Tim Heed merited Second Team AHL All-Star honors.

All of these accomplishments occurred following a concerted effort by the front office to reinvigorate the organization's prospect pool, largely spearheaded, at the AHL level, by Joe Will. On top of the Barracuda players who were recognized with major awards, Roy Sommer was named as the AHL's Coach of the Year (Louis A.R. Pieri Award).

One of Will's most important duties involves the tracking, analyzing and projecting of the team's player payroll relative to the current and future National Hockey League salary cap to give the team the financial flexibility to ice a championship-caliber team each season.

Will, 58, also works with the organization's professional scouts and management team in player research for expansion, waivers, free agency and trades. His expert analysis of economic trends in the NHL has led to the Sharks acquisition and retention of several key veteran players over his time with the club.

Prior to his current roles, Will served as the team's director of hockey operations from 2004-2011. A member of the Sharks organization since the franchise's inception in July 1990, he has also previously served as assistant to the general manager and scouting coordinator.

The Bloomington, Minn. native also works with director of scouting Tim Burke in the development and implementation of draft prospect testing, draft table operations and computer scouting analysis. Will is an integral part of the team's draft-day strategy. Without his coordinating efforts, the team would not have drafted 2001 Calder Memorial Trophy winner Evgeni Nabokov in 1994. In addition, he developed the Sharks computer scouting program that pioneered the advent of scouting programs now used throughout the NHL.

Prior to joining San Jose, Will spent six years in the Minnesota North Stars organization in various capacities.

**TOM HOLY****ASSISTANT GENERAL MANAGER**

Tom Holy enters his second year as Assistant General Manager, and will oversee the analytics department, staff budgeting and contracts. He will be the liaison between the Sharks Hockey Operations and Business departments, along with the NHL scheduling for the team.

He primarily has served in various roles in Media Relations and Public Relations with the Dallas Stars, Sharks and Cleveland Barons. He served as the Stars Vice President, Communications and Broadcasting from 2013-2022, and was the Sharks Media Relations Manager from 2005-2013. In his role as VP with the Stars, he led the organization's efforts in hockey communications, corporate communications and player relations, and served as the organization's spokesman for all news.

Holy also helped earn six separate Dick Dillman Awards, including four straight seasons with San Jose from 2007-10, presented annually by the Professional Hockey Writer's Association to honor the work of the NHL's top public relations team.

In addition, Holy Served as a Development Coach for Seiler FEC working with the 2020 and 2021 rookie classes of the Cleveland Browns and Indianapolis Colts centering around financial education and budgeting.

**TIM BURKE****SENIOR ADVISOR/PRO SCOUT**

Tim Burke enters his second season as senior advisor/pro scout and his 31st season overall with the Sharks, after four seasons as assistant general manager alongside Joe Will. Burke previously worked as the director of scouting with San Jose for 21 years.

Burke, 66, assists the Sharks efforts in the National Hockey League's annual draft while working closely with General Manager Mike Grier and his staff, and the development of the Sharks prospects.

Burke's hard work and keen decision making, coupled with the talents of his competent staff at evaluating players, has produced admired results. Burke's selection process has helped the Sharks create a solid foundation of talented players from which to build the franchise around – including Joe Pavelski (2003), Marc-Edouard Vlasic (2005), Justin Braun (2007), Logan Couture (2007), Dylan DeMelo (2011), Tomas Hertl and Chris Tierney (2012), and Timo Meier (2015).

Beginning with the 2003 NHL Draft, and through the 2017 draft, Sharks draft selections played the fifth-most games of any NHL team's draft picks (10,411) and posted the fifth-most goals (1,693) in that span, despite the organization having the lowest average draft position of any NHL team during that span (129.75).

A member of the Sharks scouting department since the 1992-93 campaign, Burke was promoted to director of scouting on June 4, 1996. Before his promotion, Burke served as director of professional scouting from 1992-96 and evaluated talent throughout all North American professional leagues and assisted with amateur scouting.

From 1987-92, he spent five seasons in the New Jersey Devils organization, serving in several capacities, including as a Devils assistant coach, head coach for the American Hockey League's Utica Devils and as a pro scout. Burke was also an assistant coach at Princeton University from 1984-86.

A former defenseman, Burke was selected by the Montreal Canadiens in the seventh round (124th overall) of the 1975 NHL Entry Draft and by the Chicago Cougars in the second round (25th overall) of the 1974 World Hockey Association Entry Draft. He was a four-year letterman in both hockey and baseball at the University of New Hampshire, where he was named to the NCAA's All-America hockey team after his senior campaign.

He played seven years of professional hockey following his outstanding collegiate career, including three seasons (1977-80) with the Nova Scotia Voyageurs, the Canadiens AHL affiliate, and one season with Jokerit Helsinki in the Finnish Elite League.

**SCOTT FITZGERALD****DIRECTOR OF PLAYER PERSONNEL**

Entering his second season as Director of Player Personnel, Fitzgerald will focus on pro and amateur scouting, including potential top-two round selections at the NHL Draft and college free agents.

In his first draft with the team in 2023, the Sharks elected Will Smith, Quentin Musty, and Kasper Halttunen in the first two rounds. Halttunen was later signed by the club to a three-year entry level contract on July 12, 2023.

He previously was with the Boston Bruins for 16 seasons, joining the franchise in 2006. He worked in various roles, including Chief College Scout, Director of Amateur Scouting, Scouting Coordinator and Scout. He also worked with the Columbus Blue Jackets as a scout from 1999-2006. His brother Tom is the current general manager for the New Jersey Devils.

**TODD MARCHANT****DIRECTOR OF PLAYER DEVELOPMENT, SENIOR ADVISOR**

Todd Marchant begins his second season as the team's director of player development, senior advisor. Marchant will oversee the player development department.

Previously, he worked with the Anaheim Ducks organization for 11 seasons as Director of Player Personnel (2021-22), and Director of Player Development (2011-21), overseeing the Anaheim prospects and their development in professional hockey. As a player, he amassed 1,195 career NHL games with the New York Rangers, Edmonton Oilers, Columbus Blue Jackets, and Ducks, scoring 498 points (186 goals, 312 assists). He won his first Stanley Cup with the Ducks in 2007, appearing in 11 playoff games and collecting three assists. Originally selected by the Rangers in the 1993 NHL draft (seventh round, 164th overall), Marchant retired from the NHL on June 29, 2011.

**RYAN STEWART****PRO PERSONNEL, SENIOR ADVISOR**

Ryan Stewart, in his second season as pro personnel, senior advisor, will oversee the Sharks professional staff in North American and Europe.

Before joining the Sharks, Stewart worked in the Chicago Blackhawks organization in various roles, most recently as the Assistant General Manager, Pro Evaluation for two seasons. He earned the roles of Vice President, Pro Scouting (2014-20), Director, Pro Scouting (2012-14), and served as both a professional scout (2010-12) and amateur scout (2008-10). While with the Chicago organization, the team won the Stanley Cup three times (2010, 2013, and 2015).

Prior to his scouting assignments, Stewart oversaw power play systems as an assistant coach in the 2007-08 season and was tasked with video coach duties in 2006-07. Before joining the Blackhawks, he served as the ECHL's Greenville Grrrowl General Manager in 2005-06 and was the assistant coach and assistant general manager in 2004-05.
