

# KRAKEN FAMILY MEDICINE

A CLIMATE PLEDGE ARENA SUBSIDIARY

334 1ST AVE N | SEATTLE, WA | 98109

To Whom it May Concern,

I am writing to inform you of my patient, \_\_\_\_\_'s, extreme illness. I have never seen such an intense case of Krakenfanitis. Symptoms include constantly checking the score and singing "Lithium" for all to hear. After minutes of studying the internets, I fear the condition is rapidly escalating and could spread to others.

It is in my unprofessional opinion, my patient will be unable to fulfill their proper duties on Tuesday, October 8th and needs to be excused. Medically speaking, the only cure would be three periods of Kraken hockey, starting at 1:30pm, with a recovery time of at least 90 power plays.

Thank you for understanding this critical outbreak and excusing my patient from work this day (or not, I will break them out anyway.)

Forever yours Hippopotamously,

*Dr. Buoy*

P.H.D., Troll College

**HOOKY FOR  
10.8.24  
1:30 PM  
HOCKEY**
