A native of Sacramento, California, Lange earned a degree in broadcasting from Sacramento State University before starting his career as the voice of the Phoenix Roadrunners (WHL) in 1970. He also served as the play-by-play voice of the San Diego Gulls (WHL) in 1973-74 before joining the Penguins.

### **HOW TO FIGURE**

**Assist** - An assist is awarded to the player or players (maximum of two) who touched the puck prior to the goal, provided no defender plays or possesses the puck in between.

**Game Played** - A player receives credit for playing in a game if: i) he steps on the ice during time played or; ii) serves any penalty.

**Game-Winning Goal** - After the final score has been determined, the goal which leaves the winning Club one goal ahead of its opponent is the game-winning goal (example: if Team A beats Team B 8-3, the player scoring the fourth goal for Team A receives credit for the game-winning goal).

Game-Tying Goal - The final goal in a tie game.

**Goal** - A goal is awarded to the last player on the scoring Club to touch the puck prior to the puck entering the net.

**Goals-Against Average** - Multiply goals allowed (GA) by 60 and divide by minutes played (MINS).

**Goaltender** - A goaltender receives a win, tie or loss if he is on the ice when either the game-winning or game-tying goal is scored.

**Penalty-Killing Pct.** - Subtract total number of power-play goals allowed from total number of shorthanded situations to get total number of power-plays killed. Divide the total number of power-plays killed by the total number of shorthanded situations.

**Plus-Minus** - A player receives a "plus" if he is on the ice when his Club scores an even-strength or shorthand goal. He receives a "minus" if he is on the ice for an even-strength or shorthand goal scored by the opposing Club. The difference in these numbers is considered the player's plus-minus statistic.

**Power-Play Goal** - A goal scored by a Club while it has a manpower advantage due to an opponent's penalty. Following are some examples of what is and is not considered a power-play goal:

- if a Club has an advantage on a minor penalty starting at 2:02 of the period and it scores at 4:02, the goal is not a power-play goal.
- if a Club scores on a delayed penalty, the goal is not a power-play goal.
- if a Club has an advantage due to a five-minute major or match penalty, that Club is always credited with having one more advantage than the number of power-play goals it scores during that advantage, because the penalty does not expire. A new advantage begins after each power-play goal. For example, if Team A scores three goals during a major penalty, it is credited with four advantages.
- if a Club is on a power-play for any length of time, it is considered to have had an advantage.
- if a minor penalty is incurred by a Club on a power-play due to a major penalty, a new advantage is given to that Club when its minor penalty expires, provided the opponent's major penalty is still in effect.

### **HOW TO FIGURE**

**Power-Play Percentage** - Total number of power-play goals divided by total number of power-play opportunities.

**Save Percentage** - Subtract goals allowed (GA) from shots against (SA) to determine saves. Then divide saves by shots-against.

**Shooting Percentage** - Divide the number of goals scored by the number of shots taken.

**Shorthand Goal** - A goal scored by a Club while it is at a manpower disadvantage. The same cases apply for shorthand as for power-play goals, but in the opposite manner.

**Shot on Goal** - If a player shoots the puck with the intention of scoring and if that shot would have gone in the net had the goaltender not stopped it, the shot is recorded as a "shot on goal".

**Shutout** - If two goaltenders combine for a shutout, neither receives credit for the shutout. Instead it is recorded as a Club shutout.

**Tenths of a Second** - If a penalty or goal occurs in the last minute, the time is rounded off to the previous second (ex: if a penalty is called with 12.4 seconds left in a period, the time is indicated as 19:47 and not 19:48.)

**Tie-Breaking Formula** - At the conclusion of the regular season, the standing of the teams in each Conference shall be determined in accordance with the following priorities in the order listed:

- a) First place in each of the three (3) divisions seeded 1, 2, and 3.
- b) The higher number of points earned by the Club.
- c) The greater number of games won by the Club.
- d) The higher number of points earned in games against each other among two (2) or more Clubs having equal standing under priority (b) and (c) \*\*
- e) The greater differential between goals scored for and against by Clubs having equal standing under priority (d).
- \*\* NOTE: For the purpose of determining standing under priority (d) for two or more tied Clubs that have not played an even number of games with one or more of the other tied Clubs, the first game played in the city that has the extra game (the "odd game") shall not be included. When more than two Clubs are tied, the percentage of available points earned in games among each other (and not including any "odd games") shall be used to determine standing.
